📍 Hồ Chí Minh City 🗓 31/12/2004

## CAREER OBJECTIVE

Front-End Developer seeking opportunities to improve my technical skills, gain practical experience, and contribute to real-world projects. Eager to learn, collaborate with team members, and grow as a developer.

## TECHNICAL SKILLS

- **Frontend:** React, React Native, TypeScript, Tailwind CSS, Angular, Flutter, Dart, HTML5, CSS3.
- **Backend & APIs:** NestJS, Node.js, Socket.IO, RESTful APIs.
- **Databases & Cache:** PostgreSQL, MongoDB, Prisma, Redis.
- **Tools & Infrastructure:** Docker, AWS EC2, Cloudflare, Expo, Git & GitHub, Postman, VS Code.

## HIGHLIGHT PROJECTS

### BandBuilder

Full-Stack Developer

03/2026 – 06/2026

- **Description:** An AI-powered IELTS Speaking simulation platform featuring real-time speech assessment, voice-activity detection (VAD), and neural text-to-speech examiner voices.
- **Tech stack:** React, React Native, Expo, TypeScript, NestJS, FastAPI, Python, PostgreSQL, Prisma, Redis, Socket.IO, Tailwind CSS.
- **Responsibilities:**
  - *Frontend & Mobile:* Developed a responsive Web Client supporting dynamic audio downsampling (16kHz AudioContext) for Whisper model processing compatibility. Built animated wave visualizations based on audio RMS inputs.
  - *Mobile Client:* Engineered a cross-platform Expo mobile app featuring mock speaking tests, flashcard vocabulary training, and local notebook persistence synchronized via AsyncStorage.
  - *Backend & AI Services:* Built database schemas using Prisma and PostgreSQL. Created a FastAPI gateway to manage live audio stream transmission over Socket.IO, fast speech-to-text transcription using Whisper, and local neural voice fallbacks using Microsoft Edge-TTS.

### Learntity

Full-Stack Developer

05/2025 – 07/2025

- **Description:** Learntity is a community learning app that allows users to share assignments, discuss, and support each other during their studies. In addition, Learntity integrates tracking, messaging, and video calling features, helping learners connect and exchange knowledge easily, anywhere, anytime.
- **Tech stack:** Flutter, NestJS, Firebase Cloud Messaging, OAuth2, Firestore Database, MongoDB, Zegocloud.
- **Responsibilities:**
  - *Authentication & Realtime Data:* Implemented OAuth 2.0 with Google Sign-In and designed Firestore-based real-time synchronization for questions, comments, and messaging.
  - *Realtime Communication:* Integrated ZegoCloud SDK to support messaging, voice/video calls, and media sharing.
  - *Notification System:* Integrated Firebase Cloud Messaging (FCM) to deliver real-time notifications for comments, answers, and messages, improving platform responsiveness.
  - *Team Collaboration:* Collaborated with a 4-member team to define, design, and ship features, managing codebase via Git and timelines via Notion.

# EDUCATION

**Ho Chi Minh City University of Transport**  
*Bachelor - Information Technology*

10/2022 – 06/2026

- GPA: 3.22/4

# SOFT SKILLS AND AWARDS

- **Soft Skills:** System Flow Design, Problem Solving, Communication.
- **Languages:** Vietnamese (Native), English (Intermediate), Japanese (Beginner)
- **Awards:**
  - Received 2 "Excellent"academic scholarships — Ho Chi Minh City University of Transport.
